

Company Profile

History: Established in 1975, Nasatka Barriers, Inc. has provided barrier protection for some of the highest profile government agencies, military installations, and corporate facilities in the United States and around the world. Based in the Washington, D.C. area, Nasatka is the originator of the first crash-tested barrier system developed, manufactured, and installed in the United States.

Company

Overview: Our ongoing commitment to research and development helps us remain the industry leader. In actual use, Nasatka perimeter barrier solutions have proven to be an effective vehicle threat deterrent, as well as a reassuring security measure for employees and other authorized personnel. Today more than ever, Nasatka barrier systems should be an integral part of any new or upgraded maximum-security plan. Whether the concern is the stoppage of terrorist vehicle attacks or the simple prevention of unauthorized vehicle access, nothing gets by Nasatka.

Product & Services

Overview: Ultimate-perimeter-security is relatively new territory for many in this rapidly evolving, heightened-security environment. As the "Barrier Originators", Nasatka and our Alliance Partners are able to provide a comprehensive, turnkey perimeter security solution and complete ongoing support for our clientele.

Facility Security Assessment

In most cases, Nasatka offers free initial site evaluation for the planning and implementation of vehicle-access perimeter security measures. We will assist you at every step, from early development through completion and into the next phase of security project planning and upgrades.

Architectural and Engineering Specification

Nasatka is dedicated to working with architects, engineers, contractors, and end users to fulfill their barrier product technical document requirements.

Security Integration

Nasatka utilizes its 30 years of on site experience and hands on approach to provide standard fully customized systems that are able to integrate all the needs of any perimeter security system. We make every attempt to provide the customer with any and all security needs they have as well as ensuring the entire system flows smoothly.

Installation Support

Nasatka is second to none in barrier installation. Our Support Services are there when you need them with personnel possessing many years of experience in barrier design, manufacturing, and installation.

Maintenance Scheduling

Nasatka will continue meeting your needs long after initial work on the jobsite is completed. Our factory-trained and certified National Alliance Partner Network provides regional expert service, planned maintenance, troubleshooting, quality parts, and complete systems support.
